Geo-Replicator® Benefits

iOra is the leading global provider of the portal and file based compression and replication technology for organizations that need to operate in the most demanding environments. Our technology enables an intelligent, competent and transparent data exchange that is consistent and guaranteed, irrespective of location or network connection. Trusted by Governments, corporates, military and global organizations, our technology has been selected for its proven capabilities in hostile and remote environments. iOra products replicate data between installed Microsoft SharePoint servers, to virtualized servers distributing web or file content or to mobile users for access offline - thus enabling guaranteed access to up-to-date operational critical information.
